## **ASX/MEDIA RELEASE**

Monday, 11 October 2010

### **FIRST ORDERS RECEIVED FOR ECOQUEST'S LITTLE TAKAS NAPPIES**

Another milestone has been achieved by EcoQuest (ASX: ECQ) with the receipt of the first purchase orders from the Australian retail sector for its *Little Takas* range of environmentally friendly nappies.

To date, orders have been received from Western Australia and New South Wales, with more expected as the "supply pipeline" is filled.

"Today's announcement signals that EcoQuest has arrived as a genuine player in the sale and distribution of environmentally-sustainable baby hygiene products," EcoQuest Chairman, Ms Sylvia Tulloch, said today.

"We continue to be encouraged by the strong interest being shown in our *Little Takas* products throughout Australia, especially by the increasing number of families caring more for the environment," she said.

"We are also very appreciative of the support shown by our new distributors."

#### **About EcoQuest**

EcoQuest Limited (ASX: ECQ) is a globally focused clean technology business based in Perth, Western Australia, and is listed on the Australian Securities Exchange (ASX: ECQ) and traded on the German Third Market.

EcoQuest is focused on developing and applying the latest technologies to create products with improved environmental benefits, but still maintaining excellent consumer performance.

The first product in the EcoQuest range is a 90 per cent biodegradable disposable nappy designed for composting, which combines all the performance benefits of current market leading nappies with additional benefits for babies and our environment.

EcoQuest nappies have been tested in accordance with Australian Standard AS4736-2006 Biodegradable Plastics. At the conclusion of six months independent scientific testing, the nappies achieved 90 per cent of the maximum theoretical value for biodegradation.

A rigorous program of independent consumer testing of the new nappy with mothers and their babies has now also been completed, with strong results. It has already received strong interest from potential commercial customers throughout the world.

EcoQuest's intellectual property is focused on non-woven disposable products. Further products in planning include biodegradable disposal nappy sacks and incontinence products.

For more information about EcoQuest visit its corporate website at [www.ecoquestltd.com](http://www.ecoquestltd.com) or the new *Little Takas* web site at [www.littletakas.com](http://www.littletakas.com).
