ECO QUEST LIMITED BOARD CHANGES

As Eco Quest Limited (ASX: ECQ) moves forward in developing its global business operations, the Board is pleased to announce the following changes.

Matthew Hiscox, currently Director of Marketing and General Manager Australia, will take on the role of interim Managing Director, as Stephen Moncur steps aside as Manager Director, but continues to provide his extensive experience in the eco-nappy sector to Eco Quest through a consultancy contract.

The Board welcomes Mr Philip Streng as an Independent Non-Executive Director. Phil has extensive experience in the retail FMCG sector spread over 40 years, including 21 years as sales director of SEB Sales (Strikeforce), one of South Australia's leading food brokers. He was a director of the Australian Food Brokers Association for 13 years, including 2 as its chairman, and currently runs his own sales and marketing business.

The Board especially looks forward to Phil's input as Eco Quest negotiates with the major retail chains in Australia and internationally.

About EcoQuest

EcoQuest Limited (ASX: ECQ) is a globally focused clean technology business based in Perth, Western Australia, and is listed on the Australian Securities Exchange (ASX: ECQ) and traded on the German Third Market.

EcoQuest is focused on developing and applying the latest technologies to create products with improved environmental benefits, but still maintaining excellent consumer performance.

The first product in the EcoQuest range is a 90 per cent biodegradable disposable nappy, called *Little Takas*, designed for composting, which combines all the performance benefits of current market leading nappies with additional benefits for babies and our environment.

EcoQuest nappies have been tested in accordance with Australian Standard AS4736-2006 Biodegradable Plastics. At the conclusion of six months independent scientific testing, the nappies achieved 90 per cent of the maximum theoretical value for biodegradation.

A rigorous program of independent consumer testing of the new nappy with mothers and their babies has now also been completed, with strong results. It has already received strong interest from potential commercial customers throughout the world.

EcoQuest's intellectual property is focused on non-woven disposable products. Further products in planning include biodegradable disposal nappy sacks and incontinence products.

For more information about EcoQuest visit its corporate website at www.ecoquestltd.com.au.
