About EcoQuest

EcoQuest Limited (ASX: ECQ) is a globally focused clean technology business based in Perth, Western Australia, and is listed on the Australian Securities Exchange (ASX: ECQ) and traded on the German Third Market.

EcoQuest is focused on developing and applying the latest technologies to create products with improved environmental benefits, but still maintaining excellent consumer performance.

The first product in the EcoQuest range is a 90 per cent biodegradable disposable nappy, called *Little Takas*, designed for composting, which combines all the performance benefits of current market leading nappies with additional benefits for babies and our environment.

EcoQuest nappies have been tested in accordance with ISO 14855-1:2005. At the conclusion of six months independent scientific testing, the nappies achieved 90 per cent of the maximum theoretical value for biodegradation.

A rigorous program of independent consumer testing of the new nappy with mothers and their babies has now also been completed, with strong results. It has already received strong interest from potential commercial customers throughout the world.

EcoQuest's intellectual property is focused on non-woven disposable products. Further products in planning include biodegradable disposal nappy sacks and incontinence products.
